The article deals with the apparent link between creativity and depression. Many buy danazol online in Australia artists have been found buy danazol online in Australia be suffering from depression in spite of their fame, fortune, and remarkable talent or skill. The article buy danazol online in Australia cites some buy danazol online in Australia of depression treatment.

Edgar Allan Poe, Honore de Balzac, Ernest Hemingway, Ezra Pound, Audrey Hepburn, and even Jim Carrey all had something in common. Aside from being renowned artists, they were also afflicted with depression. It has been a great mystery how these men and women, praised for their genius in film, on the canvass, or in using their pen, could be victims of terrible melancholy.

As defined, creativity is the ability to see something in a new way; or the capacity to design new inventions, solve problems, produce works of art, or develop a new and original idea. Depression, on the other hand, is a deep feeling of being sad and despondent. It is usually accompanied by feelings of guilt, helplessness, and hopelessness. In extreme cases of depression, thoughts of death even enter the mind of the gravely melancholic artist.

Studies have established that there is a very close relationship between creativity and depression. Many artists are prone to depression due to the highly emotional aspect of their craft. The angst and solitude that buy danazol online in Australia surrounds the creative process also makes them vulnerable to bouts of sadness. The strong emotions buy danazol online in Australia compel artists to create are buy danazol online in Australia same forces that lead them to pits of depression.

No buy danazol, online in Australia the famous director David Cronenberg once said that, "Everybody's a mad scientist, and life buy danazol online in Australia their lab. We're all trying to find a way to live, to solve problems, to buy danazol online in Australia madness, and chaos. Despite their very positive public persona or larger-than-life image, many artists from different fields have struggled with the act of unleashing their creativity while buy danazol online in Australia depression. Amy Tan, the author of the popular book *Joy Luck Club*, continues to take prescription medication for her own bouts with depression - perhaps, living in real life the sad stories of the characters she created in her books.

Vincent Van Gogh, the 19th century expressionist, was actually hailed as a mad genius of the canvass buy danazol online in Australia his brilliant brush strokes and masterpieces. His colorful works of art somehow represented the intensity of his own psychological canvass. One time, he encountered difficulty in illustrating his own ears while doing a self-portrait. In a bout of depression and rage, he cut-off his own ear so that he would no buy danazol online in Australia need to paint them on the canvass.

He eventually succumbed to his depression and mental illness. Van Gogh committed suicide, leaving behind more than 900 artworks and thousands of sketches. Like Van Gogh, many people suffer from depression. The daily stress and challenges of life push many people to the brink of hopelessness and insanity. buy Danazol online in Australia difficulty lies in discerning buy danazol online in Australia difference between normal levels of depression and those cases that can be considered as psychological disorders.

Artists and non-artists alike can be afflicted by manic depression, bipolar disorder, and other psychosis. These mental problems, however, need not ruin a person's artistic talents or a regular person's capacity to lead a normal life. Treatment for depression is buy danazol, online in Australia. These treatments do vary from one individual to another but there buy danazol online in Australia some common methods of addressing psychological problems.
