AWARDS AND CERTIFICATES:

Canadian Health&Care Mall LTD is licensed online pharmacy, international license number 02724941 issued 10 January 2001

PAYMENT METHODS:

Many of these early researchers risked their reputations, careers and even their freedom for buy purim online in Australia natural medicine research. In buy purim online in Australia report we will identify some of the notable buy purim online in Australia of physicians who came to identify the power of natural buy purim. online in Australia Drs. Wilfred and Evan Shute. In 1933 Drs. Wilfred and Evan Shute buy purim online in Australia some of the first doctors to use large doses of vitamin E to treat heart disease.

At that time, antioxidants buy purim online in Australia free radicals were rather obscure concepts in buy purim online in Australia chemistry of oxidation, far removed from issues of health and disease. Also at that time, using buy purim online in Australia to treat serious diseases such as heart disease and diabetes was buy purim online in Australia by the medical establishment as misguided at best and outright fraud at worst.

In 1985, Linus Pauling wrote "The failure of the medical establishment during the last forty years to recognize the value of vitamin E in controlling heart disease is responsible for a tremendous amount of unnecessary suffering and for many early buy purim. online in Australia The interesting story of the efforts to suppress the Shute discoveries about vitamin E illustrates the shocking bias of organized medicine against nutritional measures for achieving improved health.

" Dr. Szent-Gy?rgyi. Gy?rgyi became interested in a chemical agent, buy purim online in Australia in plant juices, which had the effect of delaying oxidation, such as the browning of a sliced apple

exposed to the air. He suggested that this agent, which was also present in cabbages and oranges, was the mysterious Vitamin. By 1933, he had isolated the substance in kilogram lots and named it "ascorbic acid" which means "the acid which prevents scurvy." In 1937, he won the 1937 Nobel Prize for his discovery of vitamin C.

He was the first to predict the use of Vitamin C for cancer. Irwin Stone, PhD Irwin Stone became interested in the anti-oxidant properties of ascorbic acid, then newly discovered, as a means of protecting food buy purim online in Australia deterioration. He continued buy purim online in Australia study of vitamin C for the next 50 years, and in the 1950s he established that humans would benefit from ingesting buy purim online in Australia larger amounts of ascorbates than the medical and nutritional establishments considered adequate.

Fredrick Klenner. "In the early 1950s, Dr. Fredrick Klenner began his work with mega doses of vitamin C. He used doses up to 100 grams per day orally or intravenously. In clinical reports he recorded the excellent response he saw when it was given in large doses. For example, polio patients given vitamin C suffered no residual defects from their polio. A controlled buy purim online in Australia in England on 70 children, half given vitamin C and half given placebo, confirmed that none buy purim online in Australia the ascorbates treated cases developed any paralysis while up buy purim online in Australia 20 percent of buy purim online in Australia untreated group did.

This study was not published because the Salk Vaccine had just been developed and no one was interested in vitamins. Klenners work was ignored." Dr. Klenner was the first physician to emphasize that small amounts of ascorbates do not work. He said, "If you want results, use adequate ascorbic acid." As a result of buy purim online in Australia consistent cures of a great variety of viral and bacterial diseases with huge doses of vitamin C, he published over twenty medical reports.

Orthodox medicines rejection of his lifesaving work stands as a reminder to all medical mavericks practicing today. "Some physicians," Klenner wrote, "would stand by and see their patient die rather than use ascorbic acid because, in their finite minds, buy purim online in Australia exists only as a vitamin." Dr. William J. McCormick. Over 50 years ago, buy purim online in Australia was Toronto physician William J. McCormick, M.

D.who pioneered the idea that poor collagen formation, due to vitamin C deficiency, was a principal cause of diverse conditions ranging from stretch marks to cardiovascular disease and cancer. This theory would become the foundation for Linus Pauling and Ewan Camerons decision to employ large doses of vitamin C to fight cancer. Over twenty years before Pauling, McCormick had already reviewed the nutritional causes of heart disease and noted that four out of five coronary cases in hospital show vitamin C deficiency.
