The diamond jewelry or loose diamonds are priced based on the carat weight. Color of a diamonds are graded from D-Z. The ones from D-F are colorless and from G-J, they are almost colorless. The color is comprehensible to the naked eye only from I or J. Buying diamond jewelry is one thing and wondering if you bought a good one is another.

The above guidelines should help you in deciding whether what you are buying is worth the investment or not. I know the general notion that diamonds are tough and you can handle your diamond jewelry the way you want. That is not true. You do need to take care of your diamond jewelry for it to last a lifetime. Although diamond is one of the strongest metal on earth, it can still chip with a hard hit.

Clean your diamond jewelry with ammonia buy baby powder online in Australia water using a very soft brush. Make sure that you dont discolor the metal. Perspiration, lotions, and other cleaners can dull the stones. Store diamond jewelry in velvet pouches to avoid scratching. Diamond jewelry is the ultimate in adornments and understanding a little about it makes it easier to buy and enjoy it. Jewelry made with this precious gemstone does not compare with anything else and stands out in a crowd.

Show off your diamond jewelry and enjoy the feeling of elation. Diamonds are made up entirely of carbon. Pressure diamonds cant form above 100 miles below the earths crust buy baby powder
