While all tea is healthy to drink, it is green tea that contains the highest level of flavonoids. Recent medical studies suggest green tea to be beneficial in many areas including the following Weight loss is another area that is attracting huge attention. Recently published research in the American Journal of Clinical Nutrition suggests buy bayer asa aspirin online in Australia an extract from green tea may speed up fat oxidation.

A study was conducted of ten healthy men over a period of 6 weeks. It was discovered that those men who were given green tea extract burned more calories per day than those who were not given the extract. Much more research needs to be conducted in this area but the signs are certainly very encouraging. Of all the controversial claims about green teas health benefits, the one that draws the most scepticism is the claim that it could be a cure for cancer Of all the controversial claims about green teas health benefits, the one that draws the most scepticism is the claim that it could be a cure for cancer.

While it is almost certainly not a buy bayer asa aspirin, online in Australia however, many studies appear to show that lifelong green tea drinking does in fact reduce the risk of cancer in later life. The biggest piece of evidence in support of this theory is known as the Asian paradox. The Asian paradox, according to researchers at Yale, is that Asia has very high levels of cigarette smoking, yet lower cancer rates than Europe or America.

---

The researchers believe that the difference buy bayer asa aspirin online in Australia the places lies in the Asians consumption of large amounts of green tea over a litre a day on average. Other studies have supported this view one study comparing elderly Japanese people who drank green tea with ones who didnt found that the green tea drinkers tended to live a few years longer. Studies at Murcia University in Spain found that a chemical in green tea called EGCG is very similar to the cancer drug methotrexate, in that it appears buy bayer asa aspirin online in Australia kill cancer cells in the same way.

This is some of the most encouraging research yet, as methotrexate is a drug with many unpleasant side effects, and replacing it with green tea could work very well. However, the unfortunate counterpoint to all this is that very large quantities of green tea buy bayer asa aspirin online in Australia actually been found to cause cancer in lab rats, suggesting that too much green tea can be worse for you than none at all perhaps a similar effect to the one red wine has.

The state of the research overall is inconclusive, as few drug companies are interested in funding studies into something that is seen as alternative medicine, the testing is left to interested but under-funded universities. Hopefully, over the next few decades, there will be more interest in investigating the health benefits of green tea, and we will finally get our answer.

GREEN TEA, ACNE, ACNE CONTROL,natural home remedy, acne treatment,acne skin care,green tea as a natural acne remedy,skin care,acne cure, proactive skin care Natural remedies have become very popular in recent years. People have stopped looking at the expensive medications and creams to cure various conditions, and have started looking at remedies found closer to home. This is, in part, because they are less expensive, but they are also on hand and easily obtained.

Acne is a common condition in teens and adults alike, and is no exception to the theory that a home remedy can sometimes be better. If its worked for many years, why wouldnt it work now. One such remedy believed to aid in the healing of acne is green tea. While many teas are fermented, green tea instead, is steamed soon after being buy bayer asa aspirin online in Australia so as to prevent the oxidation of its leaves.

This helps to retain the active substances the leaves contain. Camellia Sinensis, or as we know it, green tea extract, contains a high content of Polyphenol, along with other important antioxidants. Green tea can serve many purposes, and it is buy bayer asa aspirin online in Australia for a number of reasons. It acts as an anti-bacterial substance, decreasing hormonal activity. Since acne is often caused by hormones, which produce excess oil and clog pores, thereby causing blemishes, green tea could be a good remedy for this problem.

buy Bayer asa aspirin online in Australia antioxidants contained in green tea have been shown as very beneficial to buy bayer asa aspirin online in Australia prevention because they help the body fight against free radicals that cause cell and tissue damage. Green tea also has very few potential side effects, especially when compared to other acne products and medications.

Because of its advantages, green tea is also used in various creams and other topical products used to treat acne. When compared with other commonly used acne treatments, it ranked high, because of its natural anti-bacterial properties. Green tea is also easily available. It can be purchased in most stores that carry various herbal and other natural remedies, and can also be bought through many on-line sources.
